

## Câu 1:

The screenshot shows the initial state of the application. The window title is "Chuyển đổi đơn vị đo". It features three input fields: "Chọn đơn vị nhập:" (green) with a dropdown menu showing "Kilometer", "Nhập số cần đổi:" (purple) which is empty, and "Chọn đơn vị xuất:" (yellow) with a dropdown menu showing "Kilometer". Below these is a red "ĐỔI" button. At the bottom, there is a cyan "Kết quả:" label, an empty cyan text box, and a red "Reset" button.

Giao diện

The screenshot shows the application after a successful conversion. The "Nhập số cần đổi:" field now contains the number "6". The "Chọn đơn vị xuất:" dropdown menu has been changed to "Meter". The red "ĐỔI" button is still present. The "Kết quả:" label is followed by a cyan text box displaying "6000.0", and the red "Reset" button remains at the bottom right.

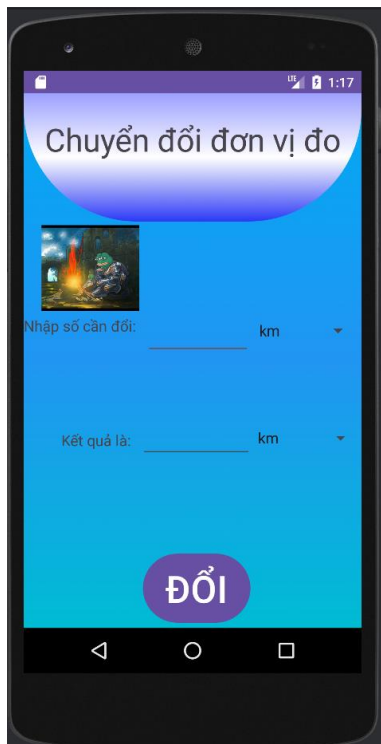

Kết quả

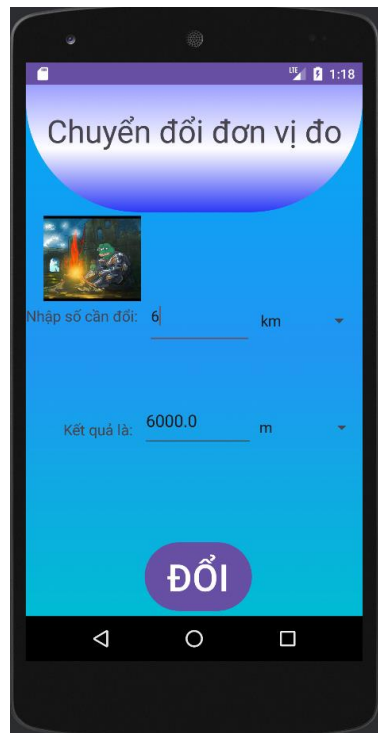

The screenshot shows the application with an error message displayed. The "Nhập số cần đổi:" field contains the text "aaaaaa-6". A modal dialog box with a red "X" icon and the title "Lỗi" is overlaid on the interface. The message inside the dialog says "Vui lòng nhập số hợp lệ." (Please enter a valid number). There is an "OK" button at the bottom of the dialog. The background interface elements, including the "ĐỔI" button and the "Kết quả:" field showing "6000.0", are still visible.
